## ABOUT OUR GUEST LECTURER

J. Daniel Gunther is a teacher highly respected and revered by his students and peers alike. Considered one of the world's few genuine authorities on the doctrines of Thelema, his lectures and presentations have been hailed as dynamic revelations of Thelemic doctrine, while his engaging question and answer sessions demonstrate his collegial approach and sincere commitment to student learning. A member of the A.'.A.'. for over thirty years, his first book *Initiation in the Aeon of the Child: the Inward Journey* brought to the public for the first time many of the teachings and instructions of the A.'.A.'. and offered a new audience the transmitted doctrinal insights and revelations of the first World Teacher of the New Aeon since Aleister Crowley. He is a standing member on the Editorial Board of *The Equinox*. This will be Daniel's first visit to Australia.

His program in Sydney offers Aspirants to the Magick, Mysticism and Mysteries of Thelema, and students of esotericism, Freemasonry, mythology, psychology, and religion in general, an exciting opportunity to proceed through a progressive learning journey in an interactive and friendly environment, hosted by the O.T.O.
