

## The “Palace of Joys and Sorrows” Conditional Awareness Spread

**Use Major Arcana Only** – The central issue or conflict in the matter and major factors – both internal and external - that influence development for good or ill. May also show psychological factors .

**Use Court Cards Only** – The key person or personal quality at the heart of the situation and conditional factors – including other people – that either aid or obstruct interpersonal relations or self-realization. (A pre-selected Significator card may be placed under Card #1 if desired.)

**Use Minor Arcana Only** - The status of the situation from a “day-to-day” functional perspective, and any trends that depart from steady-state circumstances. May show general environmental conditions.

**Sort the deck into ranks before starting: Trumps, Courts and Pips.** At all levels, “good” cards to the right will diminish negative impact, “bad” cards to the left will diminish positive impact. A strong central card bodes well for satisfaction, a weak one promises difficulties. Elemental dignities should be considered to modulate any such effects. The combined condition of the three central cards serves as the “outcome.”
